

Dear Project Success,

I was very thankful to receive these services for my fifth grader at no cost to me. The setting up process was quite simple and quick. I loved the convince of begin able to work at our schedule and not a set schedule. The fifteen or twenty minute sessions were not tool long and kept the interest of the student. I absolutely love the manner in which Erin (Online Tutor) and I kept in touch with each other. This program was very enjoyable. I have nothing but good to say of this program and the immense efforts that come from the tutors.

Sincerely,

Amy
