Andrew M.

Director of Curriculum and Instruction

28 April 2010

To Whom It May Concern:

It is with pleasure that I have the opportunity to write a letter of recommendation for ATS Project Success. Our school district, the Brandywine Heights Area School District, unfortunately went into School Improvement and has been required to provide Supplemental Educational Services. ATS Project Success was willing to service the needs of our district and students during the 2010-2011 School Year. The professional relationship that has been established between our district and ATS Project Success, has been a tremendous success.

ATS Project Success is a great company to work with. They are very organized and willing to curtail a specific plan for individual school districts as they recognize every district is unique. I have been most impressed with their communication with the district as well as parents. This constant communication was initiated as we establishing a program for our students and has continued through the tutoring of the students.

The individual care and concern of the students through ATS Project Success' tutoring services is representative of a high quality program. The program evaluates each student and develops a specific learning plan and established goals. The weekly communication with parents and monthly reports both to the parents and school district is helpful in understanding the growth of our students.

ATS Project Success has been an easy company to work with and I have been impressed with the individual care and services provided to our students.

Please feel free to contact me directly if I can be of further assistance.

Sincerely,

A handwritten signature in black ink that reads "Andrew M. Pottery". The signature is written in a cursive style.

Andrew M.
Director of Curriculum and Instruction
Brandywine Heights Area School District
